

#SL4000 - Dual motor and blower unit, this powerful and extremely portable duct cleaning system is ideal for residential and light commercial air duct cleaning. The slim, narrow three piece design allows the system to be maneuvered through the tightest doorways and staircases. These systems feature a unique 3-stage filtration system, including a final stage 99.97% HEPA filter to assure you that only absolute clean air will be returned back into the environment.

The dual backward incline 1.5 H.P. motor and blower assemblies (single motor in the SL2000) create a powerful vacuum and allows you to clean-up with confidence. Each unit includes 1-12" x 25' PVC Flex Duct, 2-Quick Connect Hose Clamps, and 1-Duct Mounting Flange. 3 year warranty.
